Subject: Las Conchas Fire Data Release
Date: 09/07/2011 03:42 PM

I received a call from Neil Weber, representing the Pueblo of San Idelfonso, concerning the release of data from the air sampling event prior to review by the Pueblo. I informed Mr. Weber that the only arrangement I was aware of regarding the release of data was for EPA to send data to NMED for public release and interpretation. Mr. Weber mentioned that he would follow up with Mark Allen on how to prevent this again.
